

A.Z. SHMINA, INC.

BUILDING CONTRACTORS • CONSTRUCTION MANAGERS

PRESS RELEASE

July 30, 2009

FOR IMMEDIATE RELEASE

A.Z. SHMINA, INC. is pleased to announce that one of their recently completed projects has received its certification as a **LEED Gold** building. The **University of Toledo Memorial Field House Project** involved restoration of the exterior of the building, which was originally built in 1931, and a complete rebuild of the 145,000 square foot interior. The building now houses 54 state-of-the-art classrooms, 70 faculty offices, and a 250-seat auditorium along with other unique and innovative educational areas. The project was originally targeted as a LEED Silver level – so all involved are very excited about attaining the higher Gold level. **A.Z. SHMINA, INC.** served as the Construction Manager on the \$27,000,000.00 reconstruction of this historical campus landmark.

A.Z. SHMINA, INC. currently has 2 LEED AP Certified employees; John McCarroll and Michael Schlenke.

A.Z. SHMINA, INC. is known for over 90 years of excellence in Construction Management and prides itself on attaining “*results with integrity*”.
